PedalBox⁺

ONLY FOR INTERNAL USE

» PedalBox⁺

The PedalBox⁺ has been completely redesigned for all existing and new throttle technologies worldwide and with best quality and reliability in mind. With the advanced Multi Protocol Technology, the PedalBox⁺ also supports all available vehicles with digital SENT accelerators.

New performance features and the newest microcontroller technology ensure the best and most powerful accelerator tuning from DTE Systems for your customers' vehicles.

Highlights

- ▶ Multi Protocol Technology also for SENT accelerators, e.g., latest Audi models
- ▶ New self-calibration feature with PerfectTune for an optimal tuning customization to each individual car
- ▶ Latest DSP technology, USB programming support
- ▶ Modern high-quality design with Soft Touch finish
- ▶ Aluminium bezel with Cool Touch effect

» Features

The PedalBox⁺ is the latest and most powerful accelerator tuning available from DTE Systems.

New Multi Protocol Technology

With the new Multi Protocol Technology, the PedalBox⁺ now is available for digital accelerators with modern SENT technology.

- ▶ Worldwide the first SENT accelerator tuning only from DTE
- ▶ Up to 3 analogue channels, PWM and SENT supported
- ▶ Available for more than 10,000 vehicle types, now also e.g., for new Audi A4, A5, A6, A7, Q7 and future VW group releases

New PerfecTune

With PerfecTune, the PedalBox⁺ will self-adjust each of the 3 tuning programs perfectly to the individual car's characteristics.

- ▶ Automatic tuning to each car with a quick self-learning procedure at the push of a button
- ▶ More precise tuning with even better responsiveness
- ▶ Easy reuse in new cars by re-starting PerfecTune
- ▶ Individual tuning profiles programmable by our dealers

New Latest DSP technology

With the newest microcontroller DSP technology, PedalBox⁺ ensures even more precise and faster signal processing for the best accelerator tuning experience.

- ▶ Finer and more precise digital signal processing
- ▶ Latest microcontroller architecture
- ▶ Convenient USB programming interface for our partners, no separate programmer required anymore

New Modern high-quality design

PedalBox⁺ was completely redesigned - not only from the inside, but also from the outside. High quality materials and modern aluminium design create the best possible experience and integration for modern cars.

- ▶ Premium Soft Touch finish
- ▶ Aluminium bezel with Cool Touch effect
- ▶ Multi-coloured backlit program button
- ▶ Ideal fit to modern car dashboards

NOTE: PedalBox 3S will be still available.
